BLOCKING UNWANTED CALLS

Tools to Block Unwanted Calls and Text Messages

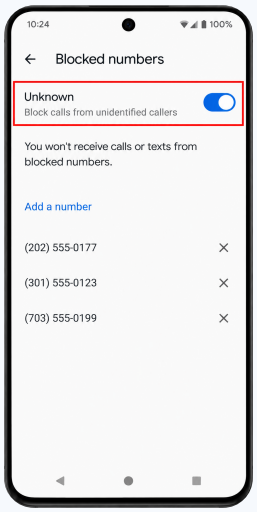

Federal Communications Commission

Android

Unwanted Calls

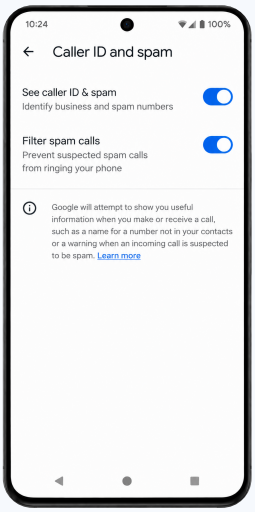

1 Block All Unknown Numbers

- Open your **Phone** app.
- Select **More**.
- Select **Settings.**
- Select **Blocked Numbers.**
- Turn on **Unknown.**

2 Enable Spam Filtering for Calls

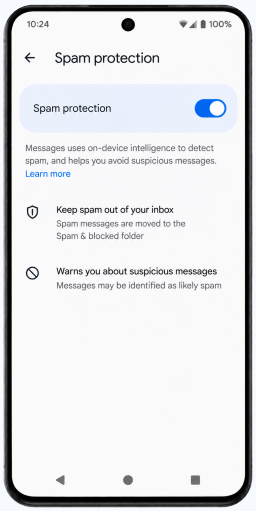

- Open your **Phone** app.
- Select **more options** or the **three dot menu** in the top right corner.
- Select **Settings**.
- Select **Caller ID and Spam** (or **Spam Protection).**
- Turn on **See Caller ID & Spam** and **Filter Spam Calls.**

Unwanted Text Messages

3 Enable Spam Protection for Text Messages

- Open the **Messages** app.
- Select your **profile photo** or **icon** in the top right corner.
- Select **Messages Settings** or **Settings**.
- Select **Spam Protection** or **Protection & Safety.**
- Turn on **Spam Protection.**

Customize Calls & Texts

4 Allow Calls & Texts Only from Allowed Numbers

Do Not Disturb (Accept Contacts Only)

- Open the **Settings** app.
- Select **Modes, Notifications**, or **Sound & Vibration.**
- Select Do Not Disturb.
- Select **allowed notifications** from **People, Apps, Alarms** & other interruptions. Or select **Calls and Messages** or **Allowed Interruptions.**
- Click **Turn On Now**. Or set incoming calls and messages to **"Contacts only"** or manually add specific people to your allowed list. Then turn on **Do Not Disturb.**
